

Duration:

1 Day

Who should attend?:

Those who wish to use AutoCAD LT to create 3D Drawings.

Course Description:

Many people have the impression that AutoCAD LT has no 3D Capability. INCORRECT! LT has a surprisingly comprehensive set of 3D Tools.

Course Outline:

3D Entities

- Discover how to create entities that have a Z coordinate

3D Hidden Lines

- Produce hidden line views and plots

Wireframe to 3D

- Discover the technique to convert Wireframe to pseudo-3D faces

Perspectives

- 3D Perspectives views in no time

Presentation Drawings

- Create elevations, 3D Views

These features can be used in all versions of LT.

* The suggested course duration is a guideline.

Course topics and duration may be modified by the instructor based upon the knowledge and skill level of the course participants.

An Adris Computing Concepts Certificate will be issued upon completion.

Maximum number of delegates: 9 per course
